Not all of the pupils who in all rea-son may be expected to register were in their places in the schools of Killingly when the fall term opened on Tuesday morning. Some have not re-turned from delayed vacations and others, for various reasons, falled to put in an appearance. The teaching staff of the town was ready and prepared for duty, however, and was premptly at work organizing classes and making assignments of work, which will be in full swing today. At the high school, where Principal Ernest Ross Warren took charge, the registration was not quite as large at was expected, although there is no doubt but that it will be materially increased during the week. No figures were available on account of the time needed to be give to organization work, but it was estimated that from 160 to 175 students were on hund. The first Better Babies show in the state of Connecticut kept a lot of doctors and nurses and mothers and managers and a few other people as busy as they could be on Tuesday after-noon at the fair. The influx of infants began at 1 o clock and the judges were not in a position to announce the re-sults of their examinations until pretty nearly 5 o'clock. Most of the time be tween those hours and considerably earlier the tent was filled with a throng of women bringing babies or eager to catch a glimpse of them, and there was no doubt that there are a good many parents in New London county who want to have for their children the best that modern scientific study can

Summer Suggestions For Baby's Mother

Seasonable Advice on the Health of Children in Hot Weather

No one requires as much food in Summer as in Winter. Do not overfeed children during the hot weather. Serve only the lighter and more easily digested foods, and make sure the bowels keep normally active.

Most of the troubles to which children seem particularly, susceptible in Summer have their origin in a constipated condition. The first care of the mother should be to see that the children are regular. At the first sign of a disposition to neglect this important function a mild laxative should be administered promptly. Catharties and purgatives should never be given to children as they are harsh and violent in their action and tend to upset the entire system. The combination of simple laxative herbs with pepsin cold in drug stores under the name of Dr. Caldwell's Syrup Pepsin, is now very generally used to correct stomach and howel trouble and is especially adapted for children being pleasant to the laste, mild and gentle in action and free

from opiate or negrectic drugs of any description. A dose at bedtime brings relief next morning in an easy natural manner, without sriping or other discomfort.

Dr. Caldwell's Syrup Pepsin is sold in drug stores for fifty cents a bottle. It has been on the market for a quarter of a century and is today, the standard household remedy in countries homes throughout the country. A free trial bottle can be obtained by writing to Dr. W. B. Caldwell, 452 Washington St. Monticello, Ill.

OBITUARY.

John A. Riley.

John Augustine Riley, 38, who has been employed in various departments of the Hartford Courant, last as head of the circulation department, died Monday night of tuberculosis at the state sanatorium at Norwich after an illness of about a month and a half state sanatorium at Norwich after an illness of about a month and a half.

In the latter part of July Mr. Riley had a severe hemorrhage and was taken to St. Francis' hospital, Hartford, July 24, after he had pluckily fought pain for several weeks without complaining. His illness was not at that time diagnosed as tuberculosis. Recurrences of the trouble occurred soon afterwards and Aug. 23 Mr. Biley was transferred to the sanatorium at Norwich. He grew gradually weaker Norwich. He grew gradually weaker until the end. He had been uncon-scious most of the time for several

days.

Mr. Riley's death, although not unexpected, is a particularly hard blow to his family, following, as it does, in less than a week, the death of his father, Patrick Riley, who died last
